

SIS Course Template

This template details when the School of Information Sciences expects to offer the courses in its catalog. However, students should anticipate that there may be some variation on a semester-to-semester basis due to instructor availability and scheduling constraints. Please also note that offerings available during Spring/Summer are more limited than Fall and Winter semesters.

Yellow highlights indicate changes from a previous template.

* Courses with this notation are based in the College of Education. Schedule offerings will vary. Please check the Wayne State Schedule of Classes.

^ Courses with this notation are cross-listed classes where SIS will attempt to provide an instructor for the designated semester. Additional sections may be available based on the College of Education schedule, please refer to the Schedule of Classes

Course #	Course Title	Frequency	Online			Physical
			Fall	Winter	Spring/ Summer	
						Semester
6010	Introduction to the Information Profession	Every	•	•	•	Fall
6080	Information Technology	Every	•	•	•	
6120	Access to Information	Every	•	•	•	Fall/Winter
6210	Organization of Knowledge	Every	•	•	•	Fall/Winter
*6350	Foundations Instructional Systems Design	Every			•	
*6360	Producing and Evaluating Tech Based Instructional Materials	Twice				
*^6510	Literature: PS-3	At Least Once	•			
*^6520	Literature: 4-8	At Least Once		•		
*^6530	Young Adult Lit	At Least Once			•
