

## Logging Into FileZilla

Prepared by Wayne SIS Tech Team

Last updated: Jan 2025

## Step 1: Log into the WSU VPN

- VPN stands for virtual private network.
  - A VPN helps make your Internet connection more private and secure.
- Currently, WSU uses the VPN GlobalProtect.
  - Here are installation instructions.
- You will need multifactor authentication in order to use the VPN.
  - That means you will also need to install Microsoft Authenticator, in addition to GlobalProtect.
  - Here are multifactor authentication instructions.
- If you are a Mac user and you are having trouble connecting to the VPN, try following these directions.

### Step 2: Open FileZilla
